WARNING
OVERLOAD CAN TIP THE EXCAVATOR AND CAUSE INJURY OR DEATH.

- Do not lift or hold any load that exceeds these ratings at their specified load radii and height.
- Total rated load is shown. The weight of all lifting devices must be deducted to determine the net load that can be lifted.

Where applicable, specifications conform to ISO Standards. Specifications are subject to change without notice.
Lift point is bucket hinge point with standard bucket attached and bucket cylinder fully extended.

SCHWENKBARER
 TRAPEZLOFFEL

A technical line drawing of a hydraulic excavator's boom and bucket. The boom is shown in a curved position, with the bucket at the end. The bucket is colored red, while the rest of the arm is black. The drawing shows the hydraulic cylinders and joints that connect the boom to the main body of the excavator.

→ Imodif 5887

Diagram of the Imodif 5887 device. The main unit is labeled 8. A cable is connected to the bottom of the unit, labeled 2. A long cable with a connector is shown, labeled 15. A small component, labeled 24, is shown with a screwdriver, labeled 25.

This diagram illustrates the chassis of a vehicle, showing the front suspension, steering, and drivetrain components. The front suspension features a MacPherson strut design with a coil spring, shock absorber, and lower control arm. The steering system includes a steering knuckle and a tie rod. The drivetrain shows the front and rear differentials, axles, and wheels. The chassis is shown in a perspective view, highlighting the overall layout and component placement.

This diagram illustrates the chassis and drivetrain components of a vehicle, shown in an exploded view. The engine, transmission, and various drive shafts are highlighted in red, while the chassis frame and other structural parts are in white. The diagram shows the engine at the front, connected to the transmission, which then drives the front and rear axles. A rear differential and drive shaft are also visible, along with a spare tire mounted on the side.

A technical line drawing of a crane boom, viewed from the side. The boom is composed of several interconnected metal plates and structural members. A specific section of the boom, located towards the rear, is highlighted in red. This red section appears to be a reinforcement plate or a specific component of the boom's structure. The drawing shows various bolts, pins, and structural details, indicating a complex mechanical assembly.
