WARNING
OVERLOAD CAN TIP THE EXCAVATOR
AND CAUSE INJURY OR DEATH.
Do not lift or hold any load that exceeds these ratings at their specified load
radii and height.
Total rated load is shown. The weight of all lifting devices must be deducted to
determine the net load that can be lifted.
Where applicable, specifications conform to ISO Standards.
Specifications are subject to change without notice.

A technical line drawing of a red excavator bucket and its hydraulic arm assembly. The bucket is shown in a slightly open position, revealing its internal structure and the hydraulic cylinder that controls its opening. The arm is composed of several segments connected by hydraulic cylinders and pins. The drawing is a perspective view, showing the side and front of the assembly.

2		<u>NC</u>					

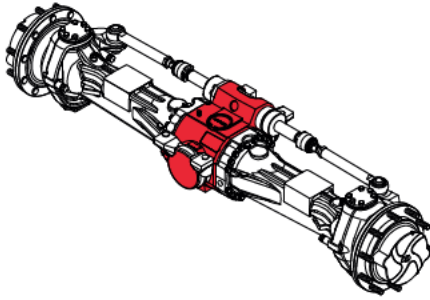

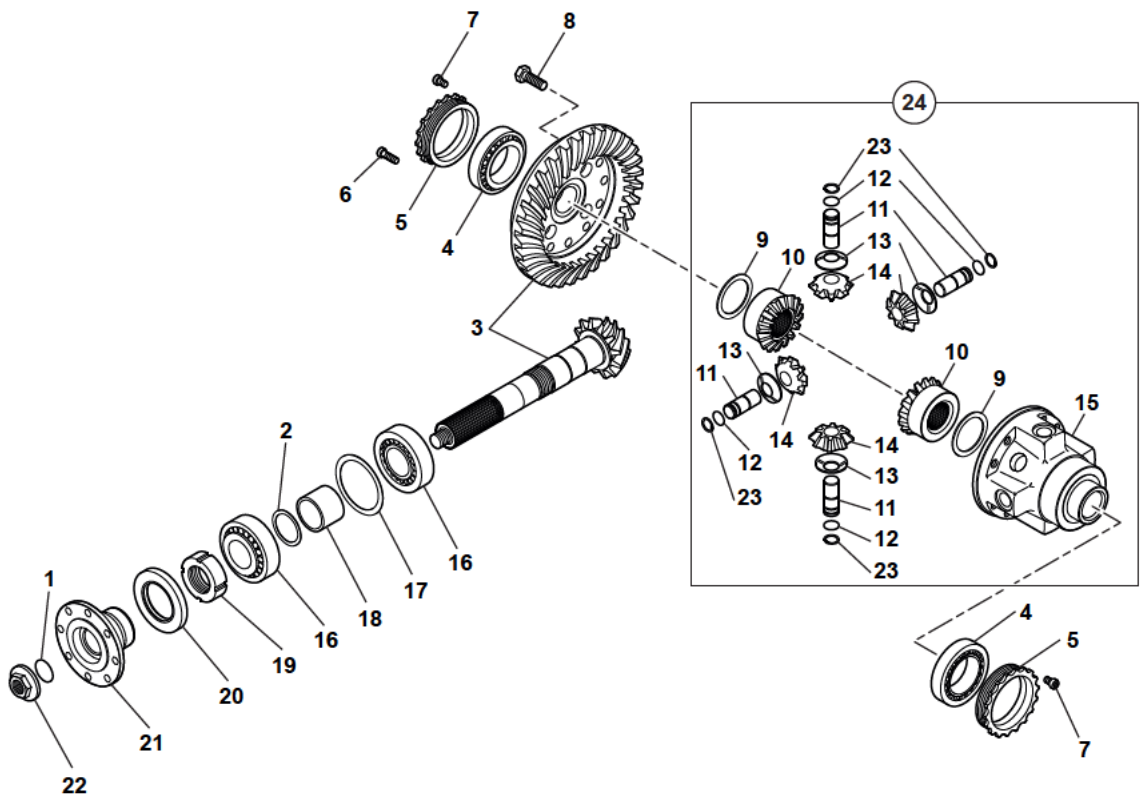

A technical drawing of a mechanical assembly, likely a pump or motor. The central component is a red, rectangular block with a circular feature on its side. This central block is connected to two larger, more complex assemblies at the ends, which appear to be the main body of the pump or motor. The drawing is a perspective view, showing the internal components and the overall structure of the assembly.

A detailed technical drawing of a mechanical assembly, possibly a pump or motor, shown from a side perspective. The assembly consists of a central shaft with various components mounted on it. At the left end, there is a large, circular, flange-like component. Moving right, there is a smaller, rectangular component, followed by a larger, cylindrical component with a red-colored internal structure. Further right, there is another cylindrical component with a red-colored internal structure, and finally, a large, circular, flange-like component at the right end. The drawing is labeled with letters and numbers: 'A' is at the top left, 'B' is at the top right, 'C' is at the bottom left, 'D' is at the bottom right, 'E' is at the top center, 'F' is at the bottom center, 'G' is at the top left of the central shaft, 'H' is at the bottom left of the central shaft, 'I' is at the top right of the central shaft, 'J' is at the bottom right of the central shaft, 'K' is at the top left of the rightmost flange, 'L' is at the bottom left of the rightmost flange, 'M' is at the top right of the rightmost flange, and 'N' is at the bottom right of the rightmost flange.

DICHTRING (BAUSATZ)

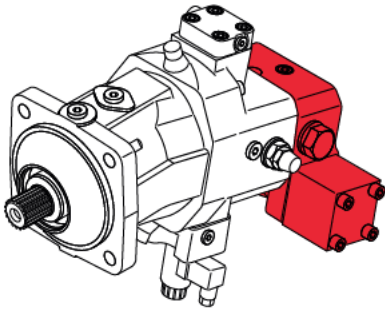

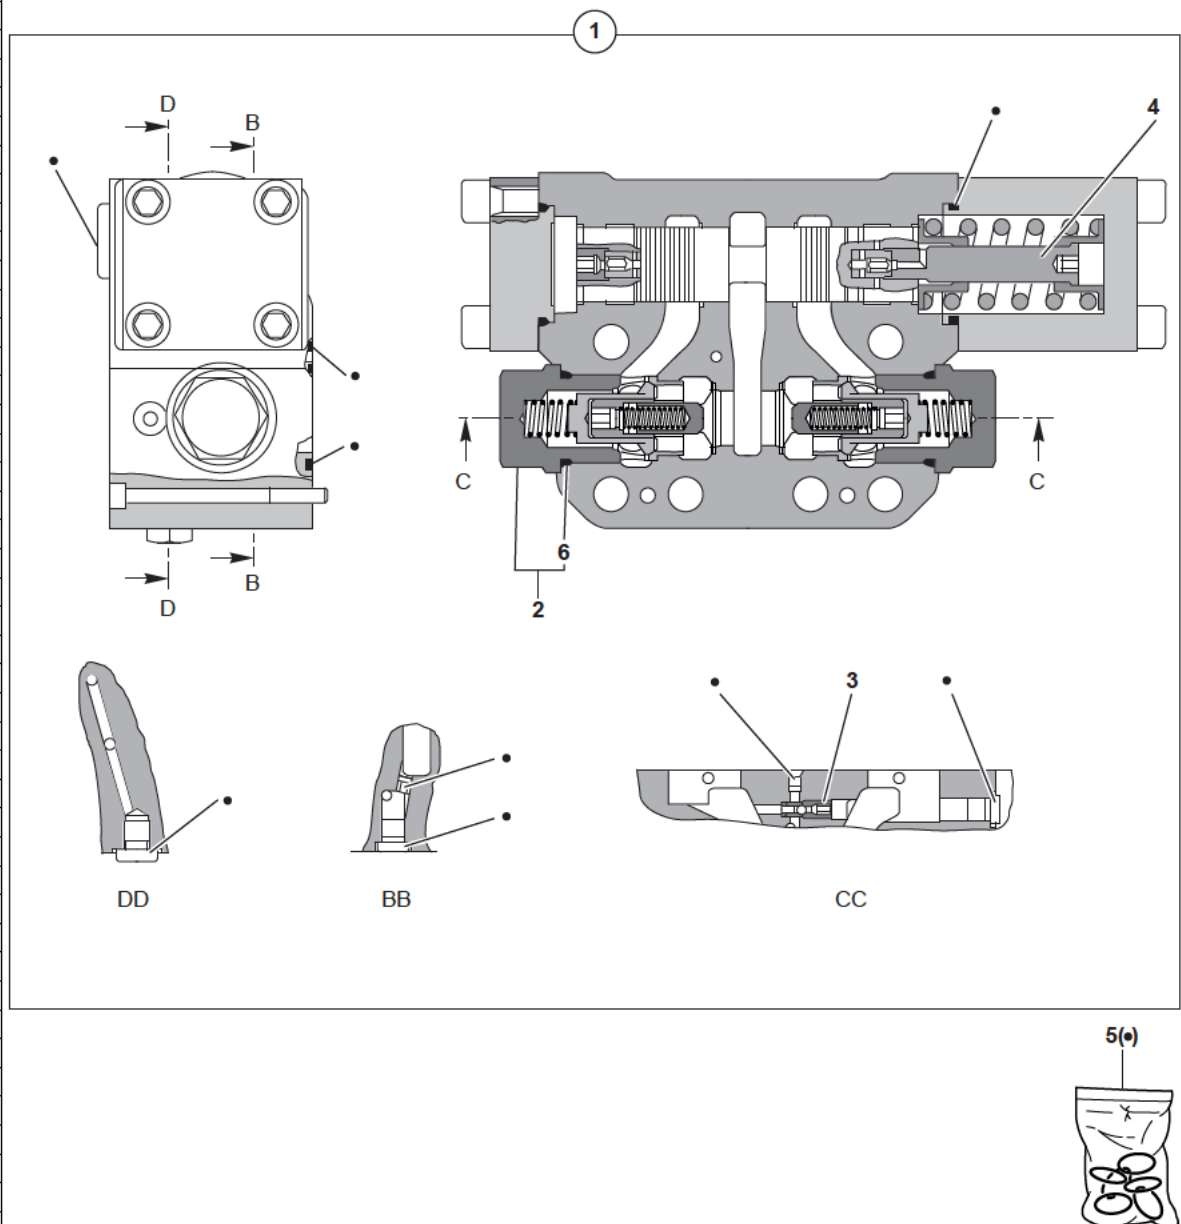

A detailed technical drawing of a hydraulic pump assembly. The drawing shows a complex mechanical unit with a large circular flange on the left side, likely for mounting or connection. The main body is rectangular with various ports and fittings. A prominent red component, possibly a valve or a filter, is mounted on top. The drawing is a perspective view, showing the front and side of the assembly.

Diagram illustrating the assembly of a hydraulic valve component. The main body (1) is shown with various ports. The assembly includes a long threaded rod (2) and a shorter threaded rod (5). A washer (3) is used to secure the rod (2) to the main body. A nut (4) is used to secure the rod (5) to the main body. A second washer (3) is used to secure the rod (5) to the main body. A third washer (3) is used to secure the rod (5) to the main body. A fourth washer (3) is used to secure the rod (5) to the main body. A fifth washer (3) is used to secure the rod (5) to the main body. A sixth washer (3) is used to secure the rod (5) to the main body. A seventh washer (3) is used to secure the rod (5) to the main body. An eighth washer (3) is used to secure the rod (5) to the main body. A ninth washer (3) is used to secure the rod (5) to the main body. A tenth washer (3) is used to secure the rod (5) to the main body. A box with an eye icon and the text "41 65 1A" is shown.

A technical line drawing of a bulldozer chassis. The frame is highlighted in red, showing the main longitudinal rails and the central engine compartment. The bulldozer is equipped with four large, treaded tires. A heavy-duty blade is mounted at the front. Various mechanical components like the engine, transmission, and suspension are indicated by lines and shading.

A technical line drawing of a four-wheeled tractor chassis. The frame is highlighted in red, showing the front and rear cross-members and the central longitudinal beam. The front axle is connected to a steering mechanism, and the rear axle is a simple drive shaft. All four wheels are large and feature a deep, aggressive tread pattern. The drawing is shown from a three-quarter perspective, highlighting the mechanical layout of the chassis.

✱

The diagram shows a 2-wire connection between a sensor and a PLC. At the top, a terminal block is labeled **1•▲***. A single horizontal line represents the 2-wire cable connecting the sensor to the PLC. On the left, the sensor is labeled **X12** and has terminals **5-6-7** indicated. On the right, the PLC is labeled **Y19** and has terminals **2-3-4** indicated.
